

Driving policy

Our goal is that everyone arrives safely at their intended destination.

We will achieve this by

- planning transportation in a safe, defensive, and respectful manner
- acting responsibly and being in fit condition at all times while in charge of a vehicle
- driving with due care and consideration for ourselves and other road users
- obeying all local and national regulations and enforcement agencies
- complying with local Archer Driving Standards or Guidance documents
- not driving under the influence of drugs or alcohol
- reporting any incidents to the relevant local authorities and local management
- undertaking relevant driver training
