

Itco-Type Spear

Efficient & Reliable Pulling of Casing and Tubing

Internally engage and retrieve drillpipe, casing, tubing or any obstruction with a known ID

The Itco-Type releasing spear is a superior fishing spear ensures positive engagement with fish. The Itco-Type releasing spear internally engages and retrieves drillpipe, casing, tubing, or any other obstruction with IDs up to 20 in. It is built to withstand severe jarring and pulling strains. Heavy-duty versions of the spear can be used with pulling tools to increase performance. It engages the fish over a large area to minimize damage or distortion of fish.

Spears are available in standard sizes or can be special ordered to any length and OD to meet the specific requirements of the job.

Features & Benefits

- Reduces maintenance costs by using less expensive disposable wear slips
